

CMS TEAM Region Report: NorCal, PNW & Rockies — 160 Mandated Hospitals

Jennifer Tim-Diamond for Rainfall Health

2026-09-01

Draft briefing ported from the Rainfall TEAM website guide and wired to the live CMS TEAM roster in this repo. Hospital counts and figures 1–2 recompute on render. Episode-dollar models are not invented here.

Region Briefing

CMS TEAM Region Report: NorCal, PNW & Rockies — 160 Mandated Hospitals

160 mandated hospitals · 39 CBSAs · before PY2 (2027) Jennifer Tim-Diamond for Rainfall Health · September 2026 Rainfall Territory 1 covers Northern California, the Pacific Northwest, and the Rockies corridor through Minnesota, Wisconsin, Illinois, and Colorado — 160 CMS TEAM hospitals and the systems that dominate them.

REGION BRIEFING

CMS TEAM Region Report: NorCal, PNW & Rockies — 160 Mandated Hospitals

Draft TEAM briefing · live roster counts

Jennifer Tim-Diamond for Rainfall Health

September 2026

01 • At a glance

Live hospital counts come from data/territoryHospitals.json (March 2026 CMS TEAM participant extract). Editorial context (Medicare population, HRRP, LEJR) is carried from the published Rainfall guide and is **not** recomputed from claims.

Table 1			
Signal	Value	Why it matters	
Mandated hospitals	160	NorCal + PNW + Rockies coverage	
CBSAs	39	Largest CBSA: San Francisco–Oakland–Fremont (37 hospitals)	
Medicare beneficiaries	Territory rollup	Covered–lives scale	
HRRP	See region guide	Readmission pressure under episode accountability	
Est. annual LEJR	See region guide	Volume concentration	

02 • Where the mandate sits

Largest market in this scope: **San Francisco–Oakland–Fremont** (37 hospitals).

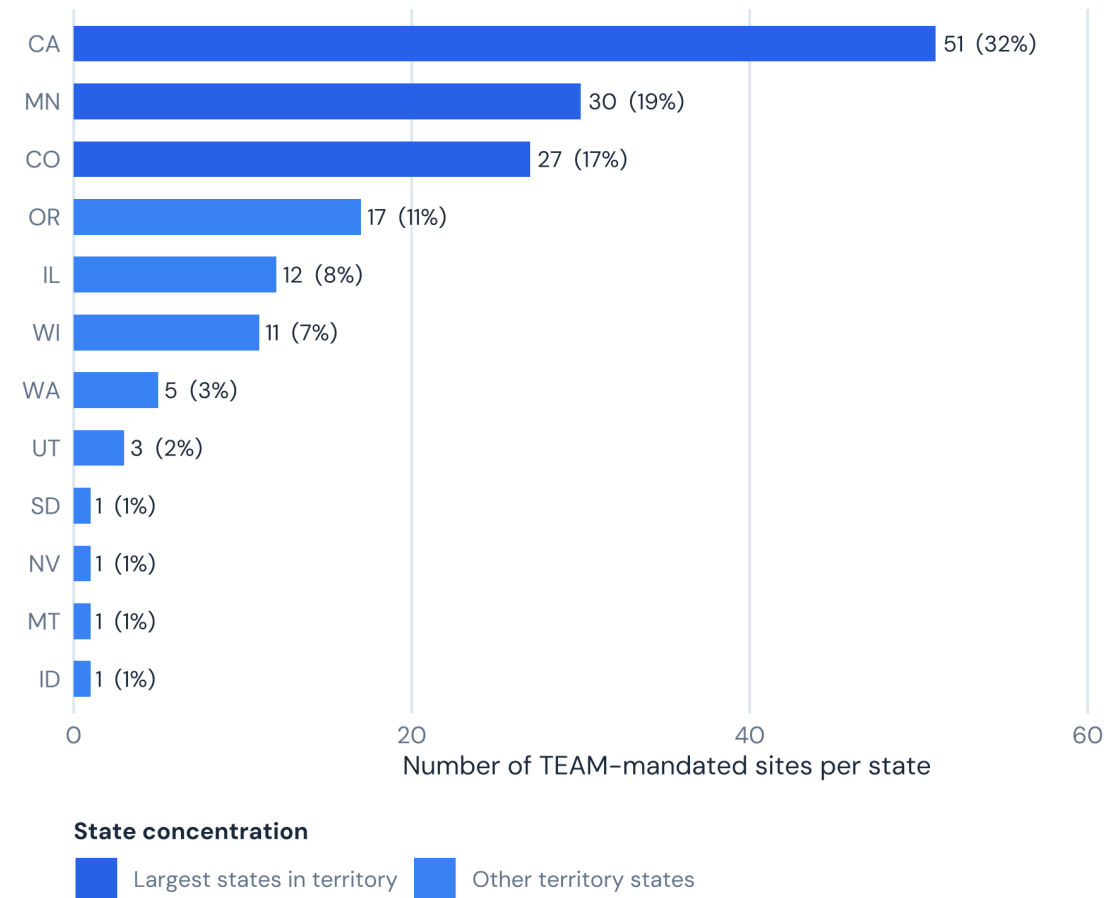

Figure 1: CMS TEAM-mandated hospitals in this scope.

Table 2

State	Hospitals	Share (%)
CA	51	31.9
MN	30	18.8
CO	27	16.9
OR	17	10.6
IL	12	7.5
WI	11	6.9
WA	5	3.1
UT	3	1.9
ID	1	0.6
MT	1	0.6
NV	1	0.6
SD	1	0.6

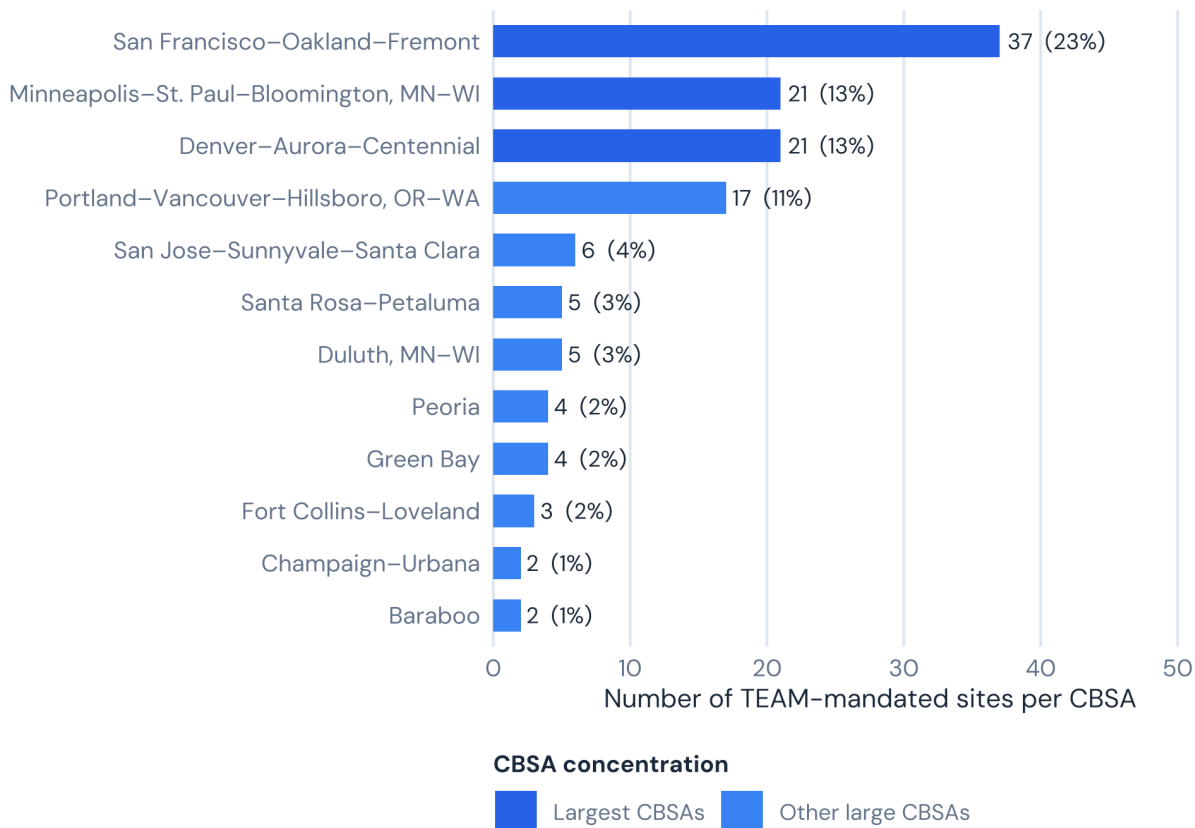

Figure 2: Concentration of TEAM-mandated hospitals.

03 • Guide narrative (from the website TEAM report)

Takeaways

- 160 hospitals — Territory 1 roster

- NorCal 51; MN 30; CO 27
- SF Bay 37 hospitals largest CBSA
- Kaiser and Providence multi-site edge
- Links California, Minnesota, Colorado guides

What is Rainfall Territory 1 under CMS TEAM?

Rainfall Health's **Territory 1 (NorCal, PNW & Rockies)** contains **160** of the **721** active CMS TEAM-mandated hospitals — **22.2%** of the national roster. The territory stretches from the San Francisco Bay Area and Northern California CBSAs through Oregon and Washington, then inland across Idaho, Montana, Nevada, Utah, and South Dakota, and east into **Minnesota, Wisconsin, Illinois, and Colorado**.

California is **split** between Territory 1 and Territory 2. Territory 1 holds the Northern California CBSAs (**51** hospitals): San Francisco–Oakland–Fremont (37), San Jose–Sunnyvale–Santa Clara (6), Santa Rosa–Petaluma (5), Eureka–Arcata (2), and Crescent City (1). Southern California CBSAs sit in Territory 2. Hospital leaders comparing statewide California guides should treat the NorCal/SoCal split as operationally real for sales coverage and post-acute network design.

Three metros dominate exposure: the **Bay Area** (37), **Denver–Aurora–Centennial** (21), and **Minneapolis–St. Paul–Bloomington** (21). Together they account for nearly half of Territory 1's hospitals and a disproportionate share of LEJR and spinal-fusion volume.

Fast facts

- 160 mandated hospitals (March 2026)
- 12 states + CA NorCal CBSAs
- Top states: California (NorCal) 51 · Minnesota 30 · Colorado 27 · Oregon 17 · Illinois 12 · Wisconsin 11
- Top CBSAs: SF–Oakland 37 · Denver 21 · Minneapolis–St. Paul 21 · Portland 17
- Integrated-system signals: Kaiser Permanente, Providence, UCHealth, Twin Cities nonprofits
- Interactive map: /territory-map

How are Territory 1 hospitals distributed by state?

The table below rolls up every active TEAM hospital assigned to Territory 1. California's 51 count is **NorCal only**; the state's remaining 56 TEAM hospitals appear in the Territory 2 report.

State / area	TEAM hospitals (T1)
California (NorCal CBSAs)	51
Minnesota	30
Colorado	27
Oregon	17
Illinois	12
Wisconsin	11
Washington	5
Utah	3
Idaho	1
Montana	1
Nevada	1

State / area	TEAM hospitals (T1)
South Dakota	1
Territory 1 total	160

Which CBSAs concentrate the most TEAM risk?

CMS selected markets at the **CBSA** level. In Territory 1, a handful of metros carry most of the coordination burden — shared SNFs, home-health agencies, and orthopedic groups that serve multiple mandated hospitals.

CBSA	Hospitals
San Francisco–Oakland–Fremont, CA	37
Denver–Aurora–Centennial, CO	21
Minneapolis–St. Paul–Bloomington, MN–WI	21
Portland–Vancouver–Hillsboro, OR–WA	17
San Jose–Sunnyvale–Santa Clara, CA	6
Santa Rosa–Petaluma, CA	5
Duluth, MN–WI	5
Peoria, IL	4
Green Bay, WI	4
Fort Collins–Loveland, CO	3

Which health systems are structurally advantaged here?

Kaiser Permanente has one of the densest explicit brand footprints on the national TEAM roster (~19 hospitals by name match), with heavy Northern California presence — prepaid integration, employed physicians, and owned post-acute pathways that map cleanly onto 30-day episode accountability.

Providence (~9 name-matched TEAM sites) anchors parts of the PNW and Inland West. **UCHealth** and **Intermountain Health** (including former SCL sites) shape Denver’s multi-hospital competition alongside HCA HealthONE facilities that sit in Colorado but compete in the same post-acute market.

In the Twin Cities, **M Health Fairview**, **Allina**, **HealthPartners**, and **Essentia** (Duluth corridor) illustrate the nonprofit-integrated pattern: shared EHRs and employed specialty groups reduce handoff friction that typically inflates SNF and readmission spend under bundles (Dummit et al., 2016; Finkelstein et al., 2021).

What should Territory 1 hospitals prioritize before downside risk?

Leaders in Bay Area, Denver, Minneapolis–St. Paul, and Portland markets should treat **post-acute network governance** as the primary TEAM workstream — not OR efficiency alone. Shared metro SNFs mean one hospital’s discharge patterns can be undercut by a competitor’s preferred-provider list.

Second, align orthopedic and spine service-line finance with episode-level cost accounting. LEJR remains the volume engine nationally; hip fracture and spinal fusion drive outlier spend. Third, reconcile your hospital’s presence on the March 2026 CMS list against any internal “741” spreadsheet still circulating from September 2024 — see our hospital-count explainer.

For state-level hospital directories, use the California (NorCal section), Minnesota, and Colorado guides, and the interactive territory map at [/territory-map](#).

Frequently asked questions

How many CMS TEAM hospitals are in Rainfall Territory 1?

160 active hospitals on the March 2026 CMS participant list, including 51 Northern California TEAM hospitals.

Is all of California in Territory 1?

No. California is split: Territory 1 covers Northern California CBSAs (51 hospitals); Territory 2 covers Southern California CBSAs (56 hospitals).

What are the largest CBSAs in Territory 1?

San Francisco–Oakland–Fremont (37), Denver–Aurora–Centennial (21), Minneapolis–St. Paul–Bloomington (21), and Portland–Vancouver–Hillsboro (17).

Which systems matter most in this region?

Kaiser Permanente and Providence for West Coast integration; UCHealth/Intermountain/HCA HealthONE in Denver; Fairview/Allina/HealthPartners in the Twin Cities.

Where can I see the hospital list on a map?

Rainfall's interactive CMS TEAM sales territory map at /territory-map filters by territory and state.
