September 2026

01 · At a glance

Live hospital counts come from data/territoryHospitals.json (March 2026 CMS TEAM participant extract). Editorial context (Medicare population, HRRP, LEJR) is carried from the published Rainfall guide and is **not** recomputed from claims.

Table 1

Signal		Value	Why it matters
Mandated hospitals	hospi-	27	Mountain-west TEAM density
CBSAs		5	Largest CBSA: Denver–Aurora–Centennial (21 hospitals)
Medicare beneficiaries	benefi-	~1.0M	Covered-lives scale
HRRP		Cited in state guide (CMS HRRP)	Readmission pressure under episode accountability
Est. annual LEJR		See state guide	Volume concentration

02 · Where the mandate sits

Largest market in this scope: **Denver–Aurora–Centennial** (21 hospitals).

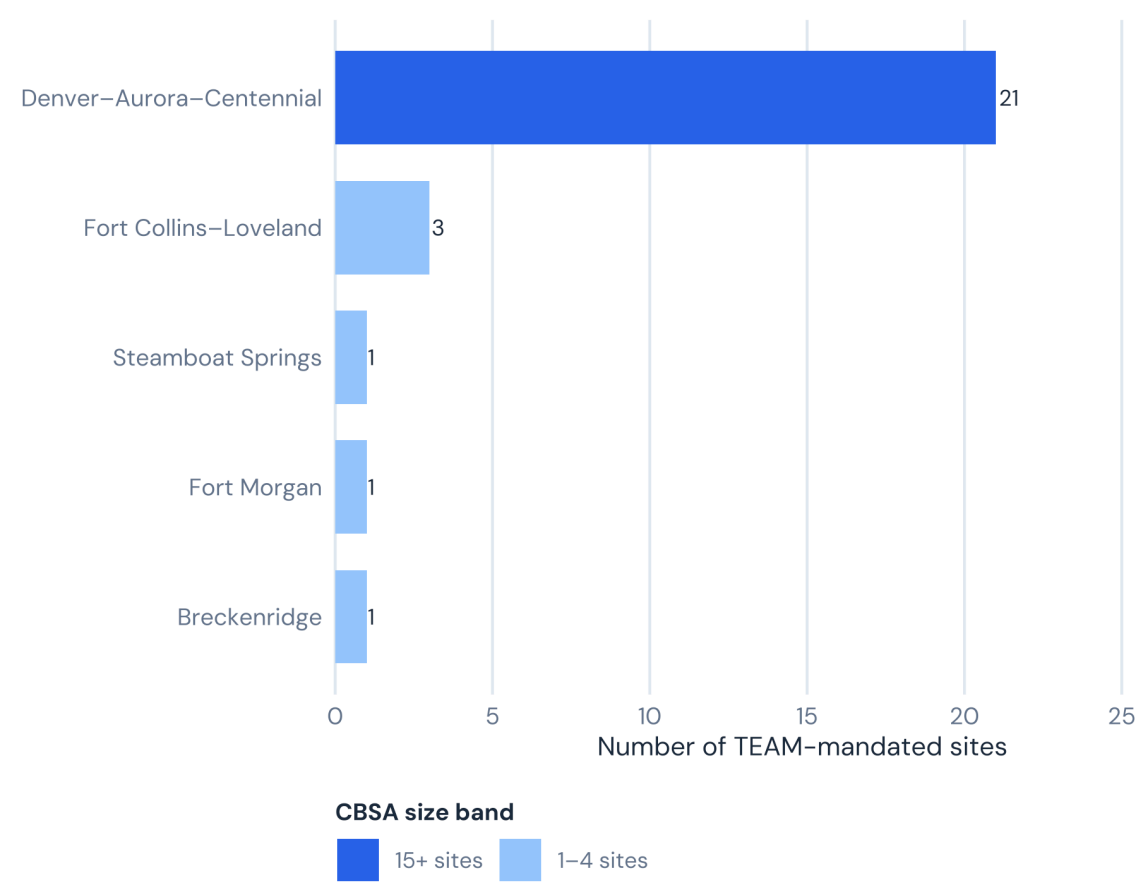

Figure 1: CMS TEAM-mandated hospitals in this scope.

Table 2

CBSA	Hospitals	Share (%)
Denver–Aurora–Centennial	21	77.8
Fort Collins–Loveland	3	11.1
Breckenridge	1	3.7
Fort Morgan	1	3.7
Steamboat Springs	1	3.7

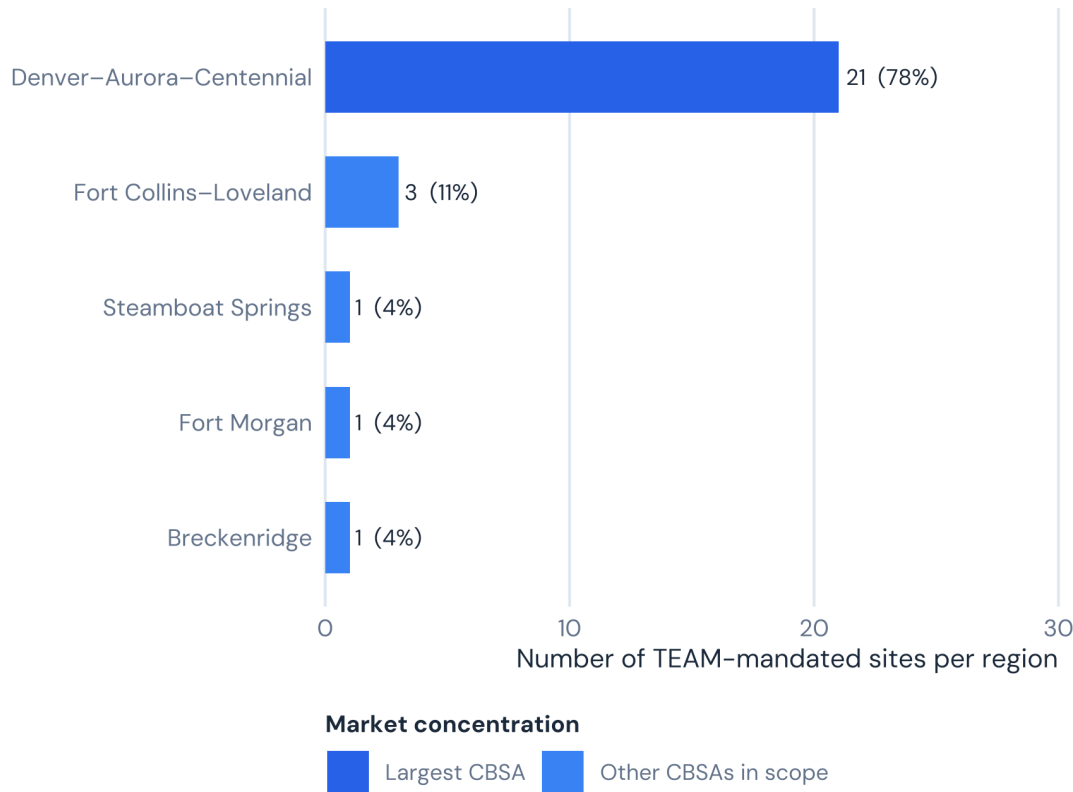

Figure 2: Concentration of TEAM-mandated hospitals.

03 · Guide narrative (from the website TEAM report)

Takeaways

- 27 hospitals across 5 CBSAs
- Denver–Aurora: 21 of 27 hospitals (78%)
- UCHHealth, Intermountain, AdventHealth all in scope
- Colorado HRRP beats national average
- Mountain CBSAs face post-acute access limits

Colorado's TEAM market: integration, altitude, and accountability

Colorado has **27 hospitals** mandated to participate in CMS TEAM across **five CBSAs**, with 21 hospitals — **78%** — concentrated in the **Denver–Aurora–Centennial, CO CBSA**. The Denver metro is one of the country's most integrated large hospital markets: **UCHHealth**, **Intermountain Health** (formerly SCL Health), **AdventHealth**, and **HCA HealthONE** have collectively built large, multi-hospital systems with unified EHR

platforms, shared post-acute networks, and physician integration strategies that are prerequisites for effective TEAM management.

Colorado's HRRP readmission performance is generally below the national average, reflecting the state's relatively healthy demographics (lower rates of chronic disease compared to Southern states), higher median household income, and the care quality investment of its major health systems. This is a structural advantage for TEAM: hospitals that have historically managed readmissions well are more likely to manage the 30-day episode cost window efficiently, since post-discharge spending and readmission risk are closely correlated.

Fast facts

- 27 hospitals mandated across 5 CBSAs
- Denver–Aurora–Centennial, CO: 21 hospitals (78%)
- Fort Collins–Loveland, CO: 3 hospitals
- Fort Morgan, Steamboat Springs, Breckenridge: 1 hospital each
- ~900,000 Medicare beneficiaries in Colorado
- Major systems: UCHealth, Intermountain Health, AdventHealth, HCA HealthONE, Denver Health
- Colorado HRRP penalty rate is below the 48.1% national average — a structural advantage under TEAM

UCHealth: the academic–community system at TEAM’s center

UCHealth — the University of Colorado Health system — is the dominant academic health system in Colorado’s TEAM cohort, with mandated hospitals including University of Colorado Hospital Authority (Anschutz Medical Campus), UCHealth Broomfield Hospital, UCHealth Highlands Ranch Hospital, Poudre Valley Hospital (Fort Collins), Medical Center of the Rockies (Loveland), and UCHealth Yampa Valley Medical Center (Steamboat Springs). The Anschutz Medical Campus, adjacent to the Children’s Hospital Colorado and the University of Colorado School of Medicine, is the state’s academic medical center anchor — a high-volume, high-complexity institution where TEAM episode management requires careful differentiation of elective from emergent surgical cases.

HCA HealthONE operates six TEAM-mandated Denver-area hospitals: Presbyterian St. Luke’s (a major cardiac and orthopedic program), Rose, Swedish, Sky Ridge, Mountain Ridge, and Aurora. HCA’s national data analytics infrastructure and BPCI Advanced experience position these facilities for systematic TEAM episode management, though the for-profit imperative creates different incentive structures than non-profit systems for post-acute investment.

Denver Health and the safety-net dimension

Denver Health Medical Center — the city-county safety-net hospital and Level I trauma center for Denver — presents the same structural challenge seen in New York, Massachusetts, and New Jersey: high complexity, high uninsured share, constrained post-acute coordination resources relative to private system peers. Denver Health is among the most financially resourced safety-net hospitals in the country (operating a managed care plan, pharmacy system, and primary care network), but its TEAM episode population will differ demographically from UCHealth’s academic medical center next door.

National Jewish Health — internationally recognized as the top-ranked respiratory hospital in the United States — is a TEAM participant primarily through its orthopedic and procedural programs. Its inclusion reflects the breadth of CMS’s TEAM definition: facilities defined by specialty reputation may nonetheless perform TEAM-qualifying surgical procedures.

Frequently asked questions

How many Colorado hospitals are mandated for CMS TEAM?

27 hospitals across 5 CBSAs, with 21 in the Denver–Aurora–Centennial metro.

Is University of Colorado Hospital in CMS TEAM?

Yes. University of Colorado Hospital Authority (UCHealth) is on the TEAM participant list in the Denver–Aurora–Centennial CBSA.

Are mountain resort area hospitals (Steamboat, Breckenridge) in TEAM?

Yes. UCHealth Yampa Valley Medical Center (Steamboat Springs) and St. Anthony Summit Hospital (Breckenridge) are both mandated. These facilities face unique post-acute access challenges given their geographic isolation.
